THIS LINE IS FILLED WITH MICROPRINT NOT JUST BECAUSE IT LOOKS INTERESTING, BUT TO MAKE A POINT ABOUT ATTENTION TO DETAIL. LITTLE THINGS GET NOTICED. PEOPLE APPRECIATE NUANCES. THIS IS THE STUFF WHICH CAN MAKE OR BREAK A USER EXPERIENCE. SO I THOUGHT THIS MIGHT BE NOTEWORTHY.

Ready For Application-building in a variety of languages, end to end, whiteboard to launch. Thinking outside the (wait, there is no box!!)

LUCKILY, THESE LINES ARE NOT CONSTRAINED BY 'FORMAL' RESUME GUIDELINES SO I CAN TAKE THIS OPPORTUNITY TO SHARE PERSONAL VIEWS, SUCH AS THE FACT THAT I THOROUGHLY ENJOY SNOW SKIING, BUT I'M MORE OF A BEACH PERSON. I WOULD CONQUER ANYTHING TO BE AN AMAZING DAD FOR MY 3 KIDS.

Toolset	Core	Ancillary	Honorable Mention	For Kicks
	PHP / MySQL JavaScript / jQuery HTML5 / CSS3 Systems Integration Data Analysis	Open Source code MVC Frameworks Database Administration RESTful APIs 3rd-party Libraries	Photoshop / Illustrator Tinkering with Linux & Python Visual Basic / Classic ASP Flash, FLEX, ActionScript FORTH, Pascal, C++, C# .NET	Music and the Arts Skimboarding Pursuing Awesome Distant Places Laughter with friends

A FAVORITE QUOTE: DO NOT BE CONFORMED TO THIS WORLD, BUT BE TRANSFORMED BY THE RENEWING OF YOUR MIND. FAVE AUTHOR: HEINLEIN. FAVE PLACE: WHITE LAKE, NC. [SO FAR.] FAVORITE CAR: 1966 CHRYSLER 300. FAVORITE CELEB: R.L.P. ROBIN WILLIAMS. FAVORITE PARTY FAVOR: DESIGNATED DRIVER.

Built This <https://sonicbox.com/> – **Flash Developer at Docler Media LLC** **Jan 2016 - Oct 2016**

Supported a “sunset” codebase in Flash/RTMP video streaming software, while porting business logic and interfaces to a newer JavaScript/HTML5 codebase for modern browsers & mobile devices. We managed 3 websites: SonicBox.com, Cyranoz.com, and Oranum.com. SonicBox brings live music to viewers around the globe; helps less-known musicians gain exposure; and lets them cultivate a following of loyal fans, monetized by charging admission to exclusive performances.

<https://secure.aje.com/default/submit> – **Senior Developer** **Jun 2013 – Dec 2013**

Worked to improve the AJE web application. It receives scientific papers submitted from global researchers, accepts payment for publishing services, then tracks each paper through its life-cycle of translation, editing, annotation and illustration, review, certification and publication. Used Zend MVC framework, Atlassian collaboration tools such as Jira and HipChat, Git with Gerrit for code review, Jenkins continuous integration server, and other resources for Agile development. Wrote a WordCount macro 3x faster and 13% more accurate than prior machine analysis for the text content of submitted papers.

<http://synapticdata.com/> – **Wearer of All Hats** **Oct 1999 – Now**

As sole proprietor of a software consultancy, I served more than 160 clients over a span of 15+ years. Notable clients include LexisNexis Group, Mitsubishi Electronics, FANUC division of GE, Microsoft, World Vision, Broadwing Communications, Carolinas Healthcare System, and Allied Telesis Labs.

ORIGINALLY I TOOK TO ENGINEERING BECAUSE I WANTED TO WORK WITH TANGIBLE REAL-WORLD THINGS IN ABSTRACT, CREATIVE WAYS. I LANDED IN SOFTWARE DEVELOPMENT WHERE WE WORK WITH ABSTRACT CREATIVE THINGS TO ATTAIN TANGIBLE, REAL-WORLD RESULTS. DISTINCTION WITHOUT A DIFFERENCE?

Studied That **Univ of NC at Charlotte – Applied Physics** **Jan 1992 – May 1995**

No degree conferred

General Motors Institute, Flint MI – Mechanical Engineering, Automotive **Aug 1989 – Dec 1991**

Transferred out, as a Junior

WHATEVER THE FATES MAY BRING AND WHEREVER THE TRADEWINDS MAY BLOW, IT IS OUR TASK TO REMAIN CHEERFULLY RESILIENT, RESOURCEFUL, ENERGETIC, OPTIMISTIC, AND DEDICATED. NOT ONLY FOR PRESENT SUCCESS, BUT SATISFACTION THE JOURNEY WAS WELL MADE, AND PEACE UPON RETURNING HOME.
